

# The Toy Dolls, What She Had With Huey

Yesterday, Huey's lips were smiling  
Yesterday, when Huey was around

She would never have no fear  
when she knew Huey was ere'  
She still hears the sound...

Yesterday, Huey's voice a calling  
Yesterday, Help me Huey cries  
The day that Huey dies.

When the night grows cold and the wind blows cruelly A HA  
then biting lonely chill goes through me  
And it feels so bad, so sad that OOEEE A HA  
Shes never gonna have what she had with Huey.

Yesterday, She & Huey laughing  
Yesterday, a life with Huey's charms  
a life in Huey's arms

and the night grows cold...

(Guitar Bit)

Yesterday, Huey's heart was beating  
Yesterday, she still had Huey  
Yesterday, she will keep repeating  
Yesterday, 'Bring Huey back to me'  
'Bring me back Huey'

When the night grows cold...
