

The Tragically Hip, All Canadian Surf Club

Well there's a rockin' little spot
Next to the Regent Theatre
And if you wanna make the scene
You'll make it sooner or later
You're really hanging with the crowd
You know the ins and the outs here
All Canadian Surf Club
Denim jackets and long hair

Well we're rocking to the beach
Watch the waves as they roll there
I meant I really dig you baby
Make me wild with your blonde hair
Yeah, when your dancin' next to me
I want to roll and die there
I'll be designing my buggy
While I'm thinking about next year

Walk across the sand
With another friend
My love depends
When summer ends

You really abuse and use the beach
Cause there's things that you need there
I got my guitar, cadillac
Chick and twenty-four cold beers
Yeah, when your dancin' next to me
I want to roll and die there
All Canadian Surf Club
Denim jackets and long hair

Walk across the sand
With another friend
My heart depends
When summer ends
Denim jackets and long hair
I want to roll and die there
Make me wild with your blonde hair
Yeah
