## The Tragically Hip, If New Orleans Is Beat

Your smile is fading a bit so I ration it Don't think about it Here where the Mississippi quits Where it's still got a bit of Minnesota in it

No one will give you a thing these days They'd rather kill it or throw it away You don't 'do' dark American streets so if New Orleans is beat Where's that leave you and me?

The river takes & Damp; takes & Damp; takes and takes It doesn't change and only changes See it there in a picture with me There's a caption beneath & Quot; New Orleans is beat & Quot; New Orleans is beat if New Orleans is beat Where's that leave you and me? Where's that leave you and me?

Your smile is fading a bit so I ration it try not to think about it
