

# The Tragically Hip, Summer's Killing Us

Does summer exist in it's praises?  
Does summer exist in it's praises?  
Summer lives here in it's praises.

Come on up here we got something to show ya  
Wanna show you everything we know  
Wanna show you we can vanish before ya  
Wanna show you we got our blind roads

And does your family know your wishes?  
'Cause this chorus'll do ya like the dishes

Summer's killing us!  
It's just sing, sing, sing, all day  
It's as if summer existed in it's praises

Come on over I got something to play ya  
Record sunshine it's the Shadow Band  
We can have strictly cactus relations  
Telling the waves to stop crashing

And does anybody know your wishes?  
'Cause this tune'll do ya like the dishes

Summer's killing us!  
It's just sing, sing, sing, all day  
It's as if summer just exists in her praises

It's a time for more to happen sooner  
A time to be a person you still know  
To float a while on your shore power  
Til you say,  
"Canada lost. Go home."

Where summer's killing us!  
Where we sing, sing, sing, all day  
It's as if summer exists here in its praises

Summer exists in a doorway  
Summer exists at the fair  
Summer is forever changes  
Summers taken me unawares
