

# The Transplants, I Want It All

&quot;I Want It All&quot;

Album : Hounded Cities

I want it all

I want it all

[Tim:]

Some come hoping to bleed it

Some look up but don't see it

Some are stand up and some seated

Some will take and some leave it

If you're talking shit you're gonna get it

I ain't the one to regret it

I said what I said so believe it

You were humble, kid, now you're conceited

I should have known all along

Fuck 'em

[Rob:]

So what, I got a little wet

More than just a little bit

Lost at the pharmacy

Ambien to Riddlin

Found the ladies, love the pills

Give it to 'em, skip the meals

On her toes designer heals

Expensive habit, flex the deals

It's there for the taking I'll go out myself

Or else I'll be forever waiting after somebody else

You've seen me get mine so why should I pay?

I'd rather rob the dope spots and take their profits away

I want it all

I want it all

[Tim:]

I always confront the approaching

Previous experience is like I get a notion

And I imagine the impending

It's me walking away and it's your life ending

When the crew is falling

And you sit by the phone all alone no one calling,

no longer sprawling, no one trawling, beaten up, broken down and apawling.

And you wanted it all

But you end up with nothing

Ain't that something

I want it all

I want it all
