

The Tubes, Turn Me On

(Spooner/Steen/Prince/Welnick/Cotten/Anderson/Waybill)

Turn me on 'cause I need it now
Turn me on 'cause I don't know how
Pick me up and shake me
Tune me in and take me
Lights are bright and the music's loud
Let me know what I need to know
Make me go where I want to go
Let me stand and wonder
Let me feel the thunder
See the lightning and the picture show
Put your hand on the power
Turn me on again and again
Say you're always gonna be my friend
Love me like you mean it
Make a mess and clean it
Don't you stop 'til I tell you when
Got a feeling something's taken hold
'Cause I'm flying by remote control
No misunderstanding
Before I make a landing
I'll lose my mind and I'll trade my soul
Put your hand on the power
When I look you in the eye
Then it's everything I need
Let me look you in the eye
'til the spell comes over me
Turn me on
Making the colors bright
Turn me on
Making it go all night
Turn me on
Giving me louder sound
Turn me on
Making it spin around
Turn me on
Sing and dance for me
Turn me on
Keeping me company
Turn me on
Making it fast and hot
Turn me on
Give me a different shot
Put your hand on the power
Turn me on
Making the colors bright
Turn me on
Making it go all night
Turn me on
Giving me louder sound
Turn me on
Making it spin around
Turn me on
Sing and dance for me
Turn me on
Keeping me company
Turn me on
Making it fast and hot
Turn me on
Give me a different shot
Put your hand on the power
Why don't you turn me on
