

The Twins, Then We Start Again

I can't deny you are the one
Who leaves my mind undone
You do the strangest things to me
Just take a look and see.

Since the day you're gone
I can't be sure what I have done
Should we really be together
Will this carry on forever.

Can't seem to make up my mind about you
Can't seem to live here alone without you
So we start
And we stop
But then we start again.

I could compare you to the sun
Your love comes shining down
But something I have had to learn
If I come too close I burn.

Since the day your gone
I can't be sure what I have done
Should we really be together
Will this carry on forever.

Can't seem to make up my mind about you
Can't seem to live here alone without you
So we start
But we stop
We're both insane.

I can't seem to make up my mind about you
Can't seem to live here alone without you
So we start
And we stop
But then we start again.
