

# The Twins, Then We Start Again

I can't deny you are the one  
Who leaves my mind undone  
You do the strangest things to me  
Just take a look and see.

Since the day you're gone  
I can't be sure what I have done  
Should we really be together  
Will this carry on forever.

Can't seem to make up my mind about you  
Can't seem to live here alone without you  
So we start  
And we stop  
But then we start again.

I could compare you to the sun  
Your love comes shining down  
But something I have had to learn  
If I come too close I burn.

Since the day your gone  
I can't be sure what I have done  
Should we really be together  
Will this carry on forever.

Can't seem to make up my mind about you  
Can't seem to live here alone without you  
So we start  
But we stop  
We're both insane.

I can't seem to make up my mind about you  
Can't seem to live here alone without you  
So we start  
And we stop  
But then we start again.
