

# The Unseen, I Don't Care

Blood on the hands, blood on the face  
Last chance left for the human race  
Forgotten heroes, fallen gods  
The world we built is gonna fall

I don't care what you think

Hate the power they've abused  
Punks stand alone, stand accused  
Watch your back, watch your friends  
Don't give in 'till the bitter end

I don't care what you think
