

The Unseen, Preacher

I don't wanna hear about your vegan shit
I eat greasy meat and damn proud of it
I don't give a fuck about Catholics and Jews
Don't feed me your stupid fucking views

You can have your own feelings that's fucking fine
If that's what you live for you're not worth my time

If you wanna be a racist bigot
That's fucking fine don't preach about it
Killing for abortion saw it on the news
Don't feed me your stupid fucking views

You can have your own feelings that's fucking fine
If that's what you live for you're not worth my time

All you straight edge kids just live your own lives
All you really are is fascists in disguise
Not against race just booze and smoke
If that's all you live for your life is a joke

You can have your own feelings that's fucking fine
If that's what you live for you're not worth my time
