

The Used, Devil Beside You

Just by the look of it
As in the way you wrote me off
Im not supposed to see
Your eyes tell lies you mouth can never spill
I wasn't feeling it
I don't even need to shake your hand
I guess you were born equipped
Your eyes tell lies you mouth can never spill
Your eyes tell lies you mouth can never spill

So nice to meet you
I see right threw that smile so in other words
So nice to meet you
I hope I never see your face again

Don't want a part of it
Don't want to be seen with a type like you
I know you were born equipped
Your eyes tell lies you mouth can never spill
Can we get on with it
We both need to go our separate ways
And never be seen again
Your eyes tell lies you mouth can never spill
Your eyes tell lies you mouth can never spill

So nice to meet you
I see right threw that smile so in other words
So nice to meet you
I hope I never see your face again

The devil beside you
To watch you die when you can't find a remedy
So nice to meet you
I hope I never see your face again
I hope I never see your face
I hope I never see your face again

I hope I never see
I hope I never see your face
I hope I
I hope I
I hope I
I hope I never see your face

So nice to meet you
I see right threw that smile so in other words
So nice to meet you
I hope I never see your face again

The devil beside you
To watch you die cause you can't find a remedy
So nice to meet you
I hope I never see your face I
I hope I never see your face I
I hope I never see your face again!
