

# The Used, Hospital

Wanting to draw you out  
Hiding in a safe place  
Hiding with your eyes shut tightly  
On the way to the hospital

No worries where we're at  
The weather that we mostly had

Standing on the rafter  
Hiding with your eyes shut tightly  
On the way to the hospital

Before I close my eyes, I'm not gonna lie

To cut my mask  
(leave the lies to the liars)  
(leave the lies to the liars)

...ways you could die in the hospital

Then on the car ride home  
Waiting for her head to explode  
Waiting in a safe place  
Hiding with your eyes shut tightly  
On the way to the hospital

Before I close my eyes, I'm not gonna lie  
(I'm not gonna lie)

To cut my mask  
(leave the lies to the liars)  
(leave the lies to the liars)

Before I close my eyes, I'm not gonna lie  
(I'm not gonna lie)

To cut my mask  
(leave the lies to the liars)  
(leave the lies to the liars)

Leave the lies to the liars.
