

The Used, The Ripper

Time Kills, Go ask Jesus
I'm done, makes no difference
Stare straight, stare at the sun
I'm done, makes no difference

Move on, Gone forever
I'm done, makes no difference
Poison time kills slowly you're done
Makes no difference

Time will now be the chopping block
Leave my head

Time takes us all
So why am I not just living for today
Time takes us, Time takes us all
Will I die right now, I'm only seconds away
Time takes us all.
