

The Verve, Make It 'Till Monday

Hey my friend are we gonna make it till Monday?
Another Friday night waiting for a revelation
I can see a million faces in the condensation
In a moment you'd changed
Things weren't the same
You were talking at me not with me
And your tongue was burning up in flames
Are you coming back?
Are you coming back?
When Monday comes you'll be alone
With the whole world staring at you
Hey my friend are we gonna make it till Monday?
Hey my friend friend you better leave now I'm gonna go my own way
You said I suffer from inner frustration
In a moment you changed
Things weren't the same
You were talking at me not with me
And your tongue was burning up in flames
And when you turn him off
Where does he go?
Where've the years gone?
I don't no
Hey my friend are we gonna make it till Monday?
Hey my friend are we gonna make it till Monday?
