

# The Verve Pipe, Senator Speak

senator speak your mind if i smoke filled room  
with a view on the top floor me  
the president seal the deal yourself a better  
hand jobless homeless man on the moon beam

the capital gains some weight around  
forever and a day break a leg of lamb  
off in the distance runner uplift your  
spirit of '76 trombones lead

i, you bet i been speaking in tongues  
speak

well, the deficit yourself right down in the front  
row row row your boat is sinking  
the cold war of the world beat around the  
Bush campaign in the ask yourself absorbing (junior)  
the economy, myself and i gotta go  
thank you very much
