

# The Verve, Sit And Wonder

I sit and wonder, I often wonder  
I sit and wonder about the things she does  
I sit and wonder, I often wonder,  
I've been waiting for this moment to come

And she's the teacher and I'm the pupil but I ain't learning anything at all  
Now I'm falling into the black hole and I can barely feel the sun

Yeah I sit and wonder, I fall to pieces  
I've been waiting for her to come  
A bed of roses, her cheeks like peaches,  
Yeah I ain't going to wait no more,

Lord give me some light  
Oh give the light  
Yeah give me some light  
Give me some light

The rights of passage, we all must take them  
Yeah some are going to break in the storm  
The door is open and I am reaching  
Yeah it looks like right at the sun

Yeah give me some light  
Give the light  
Yeah give me some light  
Give me some light.

I've been havin' trouble in my head Lord, (Oh x 4)  
I've been havin' Demons in my mind Lord, (Oh x 4)

Lord give me the light  
Oh give me the light  
Yeah give me some light  
Give me some light

I've been havin' trouble in my head Lord, (Oh x 4)  
I've been havin' Demons in my mind Lord, (Oh x 4)  
Somethings going wrong inside my head Lord, (Oh x 4)  
Somethings going wrong inside my head Lord, (Oh x 4)

I could be searching all my life, searching all my life  
Keep that candle on at night, candle on at night  
Keep that candle on at night, candle on at night  
I could be hurtin' all the while, hurtin' all the while  
Lord give me the light!
