

The Vines, She To Me

She's got something to say to me
Found we have a common ground
She's got something to say to me
Don't know how to be let down
And you tell me we're going nowhere
She's got something to say to me
Found we have a common ground
She's got something to say to me
Don't know how to be let down
Then she tells me we're going nowhere

Found we have a common ground to play
And I wouldn't wanna let you down
Beachin' every morning of the day
So the summer's full of

She's got something to say to me
Found we have a common ground
She's got something to say to me
Don't know how to be let down
Why did you tell me were going nowhere
