The Waifs, Circles

What's your excuse for living like You're somebody different You're nobody different You're just somebody

Tell me what's the reason behind All your frustrations It's a bad situation Can you trust me

Do you think that maybe you live your Life in circles Going round in circles Heading nowhere

If you wanna sort it out you gotta Talk about it, live without it Come on and talk about it, live without it

What's your excuse for living like You're somebody different You're nobody different You're just somebody
