

# The Wallflowers, See You When I Get There

Im looking up  
At the moving clouds  
Ive been hit so hard  
This time  
I just might stay down  
If you were me  
I would come back  
To get you  
If this is love  
Then I dont remember  
You wont find anyone  
To treat you better  
Weve already been through  
Hell and high waters

I aint sorry baby  
Dont think that  
We aint done anything  
That Id take back  
Go on pretend  
That you aint changed  
And dont worry bout me  
Ill see you when I get there

Im looking up  
At the moving clouds  
Ive been down so long  
But I still think you  
Might come around  
So Im making plans  
For when you feel better  
You just might want  
Someone more familiar  
You wont find anyone  
Else to take you back  
Now sometimes youre an angel  
But youre usually  
A pain in the ass

[chorus]

I need your love  
Much more than I want it  
You left me here  
With another bad habit  
Now you found paradise  
And crawled to the shoreline  
I saw a white flash  
And then I saw the lids of my eyes

[chorus]
