

The Wallflowers, See You When I Get There

Im looking up
At the moving clouds
Ive been hit so hard
This time
I just might stay down
If you were me
I would come back
To get you
If this is love
Then I dont remember
You wont find anyone
To treat you better
Weve already been through
Hell and high waters

I aint sorry baby
Dont think that
We aint done anything
That Id take back
Go on pretend
That you aint changed
And dont worry bout me
Ill see you when I get there

Im looking up
At the moving clouds
Ive been down so long
But I still think you
Might come around
So Im making plans
For when you feel better
You just might want
Someone more familiar
You wont find anyone
Else to take you back
Now sometimes youre an angel
But youre usually
A pain in the ass

[chorus]

I need your love
Much more than I want it
You left me here
With another bad habit
Now you found paradise
And crawled to the shoreline
I saw a white flash
And then I saw the lids of my eyes

[chorus]
