

The Wallflowers, When You're On Top

I need a bed
That nobodys slept in
I need some air
Nobodys been breathing
I need a thought
That I can believe in
Is this fog
Or is the building really burning
I need you
Much more than ever
Im making new friends
But none of them matter
Maybe now
We dont fit together
But youve got your arms around
No one but strangers

I feel fine
With the sun in my eyes
The wind in my hair
When Im falling out of this sky
Im doing better than I thought I would
But nothings ever as good
As when youre on top

I want to wake up
And just start running
Into a ditch
Or straight up a mountain
I want to get
Where no one been gettin
Make it deeper than hell
Or make it higher than heaven

I need someone whose price hasnt been met
When everybodys disappearing
By the minute
There isnt anyone left
I havent meet yet
Well I remember
When they hadnt gotten to you yet

[chorus]

Half way up
And over this rainbow
I heard a shot
Fire up from a ghetto
As I drop
I didnt think youd follow
Just didnt know
The sky was this shallow

I need a garden
Where nothings forbidden
I need an apple
That no ones been eatin
I want to start again
Back at the beginnin
I had a vision
That this feeling maybe has an ending
