

# The Wallflowers, Witness

I'm standing outside your window, baby  
And there you are  
Another year, another candle's burning  
for the party girl  
No one even knows that you're there  
Happy Birthday, no one cares

You come around here,  
You'd better bring a witness  
Everyone in here's on the guest list  
And when you're gone you won't be missed  
Keep one eye open  
when you kiss

Your wishes won't be coming true this year  
Now darling don't you cry  
We're going to teach you everything  
You'll learn to get by  
Now lesson number one in homicide  
is emotional murder is no crime

You come around here,  
you'd better bring a witness  
Everyone in here's on the guest list  
And when you're gone you won't be missed  
Keep one eye open  
when you kiss

Now sticks and stones, baby, break your bones  
But the names, in here, can kill  
We'd let you leave  
but no one else wants you  
Your ransom was not made  
Now you ain't got to stand up tall  
But now baby, you must stand up

You come around here,  
you'd better bring a witness  
Everyone in here's on the guest list  
Now we've never been so impressed  
Keep one eye open when, whenever you kiss
