

# The Warning, Evolve

You don't know how bad it'll get A simple moment to forget  
I'm not in danger  
I am the danger  
Gold shall not define your worth It's not destruction its rebirth I'm not in danger  
I'm the danger now  
Show me what it means to change  
Help me become something More than just a vessel in disguise  
Pain is the price to survive To evolve  
Dry my tears cause I'm a weapon.  
Weapons never weep  
I'm not in danger. I'm the danger Start the clock and keep it running  
It's the one to beat I'm not in danger I'm the danger now.  
I'll show you what it means to change  
Help me become something More than just a vessel in disguise  
Pain is the price to survive To evolve  
Help me become something More than just a vessel in disguise  
Pain is the price to survive Is it wrong or right?  
To evolve
