

The Weeknd, Fill the Void (feat. Lily Rose Depp, I

I don't wanna decide things for myself, on my own
Finally, for the first time, I'm alone
You call me, havin' good times with a bad boy
Seems I've got a choice to make
Be my voice and I choose you to fill the void

(Void) I choose you to fill my void, yeah
(Void) I choose you to tell me, you to tell me
(Voice) I choose you to fill my void, yeah
(Voice) Be my voice and I choose you to fill the void

Ooh, tell me why, tell me why do I feel so free when I'm dead?
Oh, when I'm tied on to your short leash
Ooh, tell me why, tell me why do I feel so free when I'm dead?
Oh, when I'm tied on to your short leash (Oh)

Give it up, give up that threesome
Goddamn, you look good in this lighting
Fill it up, fill a prescription
Feel numb while we're intertwining
I'm in love with both at the same time
She'll go down while I hit it from behind
You're the one, you're the only one
Baby girl, we could both have fun, yeah

Oh, I choose you to fill your void, yeah
Oh, I choose you to fill you up, to fill you up, hey
Oh, I choose you to fill the void, yeah
Oh, oh, yeah, yeah

Oh, woah
Woah, woah, woah
Woah, woah, woah
