

# The White Stripes, This Protector

I never knew that I had to be this protector  
so many thoughts inside my head a strange collector

But now  
but now  
but now  
now, now, now, now, now

You thought you heard a sound  
there's no one else around  
looking at the door  
it's coming through the floor

300 people living out in west virginia  
have no idea of all these thoughts that lie within ya  
but now  
but now  
but now  
now, now, now, now, now

You thought you heard a sound  
there's no one else around  
looking at the door  
it's coming through the floor
