

The Who, Twist And Shout

Well shake it up baby now
Twist and shout
Come on come on come on come on baby now
Come on and work it on out

You know you look so good
You know you look so fine
Come on and twist a little closer now
And let me know that you're mine

Well shake it up baby now
Twist and shout
Come on come on come on come on baby now
Come on and work it on out

You know you look so good
You know you look so fine
Come on and twist a little closer now
And let me know that you're mine

Well shake it up baby now
Twist and shout
Come on come on come on come on baby now
Come on and work it on out

You know you twist a little girl
You know you twist so fine
Come on and twist a little closer now
And let me know that you're mine

Well shake it up baby
