

The Wilkinsons, One Of Us In Love

Here we are 'neath the stars

It's just me and you

What are we gonna do

Where's this gonna lead

You say it's time

To define how we feel about it

I know without a doubt

It's crystal clear to me

(chorus)

(That/Oh) One of us is in love

ONE heart knows it's true

I will wait forever

To spend eternity with you

Every night and day

I'll get on my knees

And pray if I must

That more than

One of us is in love

Now you know hear and soul's

How I need you

I just wanna please you

Please don't be afraid

Love isn't played

Love is made so remember

Girl if you surrender

And take that leap of faith
