

The Wilkinsons, Then There's You

(Steve Seskin/Paul Young/Paul MacDonald)

Another Monday morning
Gotta clear my head
No more time for dreaming
Traffic was a nightmare
Boss is on my back
If I hear one more cross word
I think I'm gonna crack

Then there's you
Coming in right on cue
When I say no can do
You give me strength to fight
To see that there's shades of blue
Everything's black and white
And then there's you

The sky is clear this morning
Looks like a brighter day
And I don't need to worry
When it fades away

('Cause) Then there's you
Someone to hold on to
When all of my plans fall through
You give me strength to fight
To see that there's shades of blue
Everything's black and white
And then there's you

You keep me warm when nights are cold
You, you light a fire in my soul
