

Thea Gilmore, Goodnight Copenhagen

Goodnight Copenhagen
The wasted souls on the road
Tomorrow it will be raining
For now, we'll career
Through the steam that called us here
We've got it all

Goodnight, goodnight London
The long grey out of the west
It's not just the bridge that is burning
There's fire in the street
Where your two hearts meet
You got it all

Have you got it all?
Have you got it all?
Have you got it all?

Goodnight radio Romeo
Blood brown with shadows and gumsticks
Twisted, the crosses gonna show
There is us and them
You'll go to Hell and back again
Til you've got it all
Til you've got it all
Til you've got it all
Til you've got it all

Goodnight Copenhagen
The star-stained eyes
I'm coming back here again
When the flags can't be burned
And the land serves its blood
You can't get it all
You can't get it all
You can't get it all
You can't get it all
