

# Therapy?, Evil Elvis (The Lost Demo)

I lost my way  
But I'm coming back to mess with your head  
And I'm feeling all alone  
Got to get you, got to let you know

I can never have you so I will always hate you  
I can never have you so I'll hate you  
I can never have you so I will always hate you  
I can never have you so I'll hate you

Are you on my side?  
All these drugs have made me paranoid  
And I'm feeling insecure  
You're the only one that makes it worse

I can never have you so I will always hate you  
I can never have you so I'll hate you  
I can never have you so I will always hate you  
I can never have you so I'll hate you

I can never have you so I will always hate you  
I can never have you so I'll hate you  
I can never have you so I will always hate you  
I can never have you so I'll hate you  
Hate you, hate you

Thank you very much
