

Therapy?, Little Tongues First

This is my vision
And this is my way
And I won't back down

This is my land
And this is my way
And I won't back down

It's already here
It's finally come for me, sweetness
Today of all days

But that was my past
And I won't look back
But I won't back down

Good day for a walk, shake it to the walls
Good day for a walk,
Good day for a walk, shake it to the walls
Good day for a walk

Suicide pact, suicide pact, suicide pact, you first
Suicide pact, suicide pact, suicide pact, you first

And it's not the end yet
Don't send me flowers, 'cause I'm not dead yet
I'm not suicidal, I'm just bored

And don't pull the trigger
'Cause I'm just a singer
Tonight, baby, I'm the gormless jester
A fake smile, and a phoney gesture

Good day for a walk, shake it to the walls
Good day for a walk,
Good day for a walk, shake it to the walls
Good day for a walk

Suicide pact, suicide pact, suicide pact, you first
Suicide pact, suicide pact, suicide pact, you first

Suicide pact, suicide pact, suicide pact, you first
Suicide pact, suicide pact, suicide pact, you first
