

Therapy?, Sister

Hey sister
What i'm in for?
What is this place?
Who are this people?
Miles of wires
Fluorescent light
Crimson faces
Familiar hatred
Miles of wires
Fluorescent light
Crimson faces
Knucle necklace

[Chorus]

Sister I'm lost
And i'm taking you with me
Where ever i go
Yeah, i'm taking you with me
But sister, i'm lost

And it's raining
Like i've never seen
Thick red hot
In pregnant drops
I scratch my skin
I can't sleep
I'm barely awake
I'm suffocating
An open space
I can't sleep
I'm barely awake
I'm suffocating
I'm suffocating

[chorus]

Do not, do not, do not, do not, do not
Do, do, do, do, do
Do not, do not, do not, do not, do not
Do, do, do, do, do

And i can't sit still
And i can't relax
It's like trying find my way out from someone else's nightmare
Working for the same old people
Waiting for the same old things
Working for the same old people
Waiting for the same old things

[Chorus]
