

Thievery Corporation, 33 Degree

I'm the president of the shadow government
The grand governor of the federal reserve
Public enemy of the society
The one you cannot see
The 33 degree

Before you call the shot ???
Blow up the system and the tables have turned
Your inner knowledge, you thought I'd never learn
I strike a match and make the whole place burn

I'm the real WMD
I'm your number one public enemy
I'm your one, your runaway slave
I'm the one, the one who got away

Automatic, rapid, fire
Automatic make me in a danger
Automatic, rapid, fire
Automatic make me in a danger

Lethal, man, me lethal
???
Danger, man, me danger
???
Lethal, man, me lethal
???
Danger, man, me danger

Cameras they track me they try to entrap me
Shadows I creep 'cause I know exactly
The knowledge, the key
I'm the word on the street

I've got nothing to lose, the whole world to gain
Slip out of the noose, I'm running your game

I beat the hive, I upset the swarm
Category five, I'm the centre of the storm

We not gon' stress
Put me to the test

All the dangers can be dealt with the wind (?)
Bulletproof vest and army
Smith and Wesson
???

Not gon' stress
Put me to the test
We not gon' stress
Put me to the test

I said all the dangers can be dealt with the wind (?)
Bulletproof vest and army
Smith and Wesson
???

We not gon' stress
Put me to the test
We not gon' stress
Put me to the test
