

# Thievery Corporation, Vampires

They'll gain the world but lose their souls  
They'll gain the world but lose their souls

Don't believe politicians and thieves  
They want our people on their bended knees  
Pirates and robbers, liars and thieves  
You come like the wolf  
But dressed like the sheep

If you go to Lagos, what you find, vampires  
If you go to Kinshasa, what you find, vampires  
If you go to Darfur, what you find, vampires  
If you go to Malabo, what you find, vampires

Lies and theft  
Guns and debt  
Life and death  
IMF

When the bank man comes to your door  
Better know you'll always be poor  
Bank loans and policies  
They can't make our people free

You live on the blood of my people  
Everyone knows you've come to steal  
You come like the thieves in the night  
The whole world is ready to fight

If you go to Lagos, what you find, vampires  
If you go to Kinshasa, what you find, vampires  
If you go to Darfur, what you find, vampires  
If you go to Malabo, what you find, vampires

Lies and theft  
Guns and Debt  
Life and Death

They gained a war but lose their soul  
They gained a war but lose their soul

You live on the blood of my people  
Everyone knows you've come to steal  
You come like the thieves in the night  
The whole world is ready to fight

If you go to Lagos, what you find, vampires
