

# Thin Lizzy, Bad Habits

I seen you walking down the street with another man  
Girl you're really shocking  
I seen you walking down the street with another hand  
Held in your stockings

Boys will be boys and girls will be trouble  
And I'm a man of bad habits  
I seen you walking down the street with another man  
Girl I had to have it

Bad habits  
Bad habits  
Bad habits

You and I we should meet  
Yeah, you and I we should get together  
Me and you and I should meet  
In the rain and stormy weather

Bad habits  
Bad habits  
Bad habits

No messing around  
Now's the time to start

Boys will be boys and girls will be trouble  
And I'm a man of bad habits  
I seen you walking down the street with another girl  
Man I had to have it

I know it gets into your brain  
Sometimes it dribbles and goes in your veins  
I tell you this boys is the same  
This boy's got bad habits

You and I should meet  
You and I we should get together  
You and i, you know we should meet  
Hey babe, check it out the stormy weather

Bad habits  
I got bad habits  
I got bad habits
