

# Thin Lizzy, Toughest Street In Town

Outside the window the neon flashes  
In the morning light  
Down on the sidewalk there's a woman with a problem  
But she don't know how to fight

She's destitute and broken down  
She softly whispers is there no one around  
And no one hears the sound  
Her knees give way and hit the ground

This is the toughest street in town  
This is the toughest street in town  
This is the toughest street in town  
This is the toughest

Like a rat in a pack it attacks  
From the back  
Through a crack in a track  
And you take a smack

This Jack has had a hard day  
No one told him it would be like this  
He's had to score the hard way  
Working on twenty hour shifts

This is the toughest street in town  
This is the toughest  
It's tough stuff  
This is the toughest street around  
This is the toughest  
Don't you do down

No how

It's just another black spot  
Where far too many people have died  
It's just another grave yard  
And there's not too many people left alive

This is the toughest  
Are you tough enough  
This is the toughest  
Are you rough enough  
This is the toughest  
Can you bluff enough

Just a minor misery did me no harm  
But it's there to warn outside the window  
The neon is still flashing in the morning light  
Down on the sidewalk that woman was blown away  
Out of sight

All across the city no one gives a damn  
All across the city no one seems to understand

This is the toughest  
This is the toughest street in town  
This is the toughest street around  
This is the toughest

Are you rough enough  
This is the toughest  
If I were you I wouldn't come around here  
This is the toughest

This is the toughest  
Are you tough enough
