

# Third Day, I Will Hold My Head High

Sometimes the night starts closing in  
And I've lost my way home again  
I'm running out of places I can turn  
Enemies on every side  
Not a friend around for miles  
That's the time it really starts to hurt

## PRE-CHORUS:

Beat me up and drag me down  
I'll never be afraid

## CHORUS:

I will hold my head high  
Lift my hands to the sky  
Rise above all who try to bring me down  
I will hold my head high

I know you said it'd be okay  
Sometimes I question just the same  
I wonder if my problems are too small  
Then I look back and realize  
All your pain and sacrifice  
Oo, and how you suffered for us all

## PRE-CHORUS/CHORUS

## BRIDGE:

Beat me up and drag me down  
And lock me in or keep out  
Whatever they may throw at me  
I'll turn in to a song for you

## CHORUS x2
