

# Thirteen Senses, Follow Me

Follow me  
And I will take you in  
Finally  
You get to see what we think

I didn't show up today  
I only disappeared  
A missing detail  
Of how I should feel

The memory has been erased  
Yeah  
If you really want to escape  
You don't belong here

Follow me  
And I will take you in  
Finally  
You get to see what we think

Oh

Turn the lights out  
And be on your own  
Outside your window  
They'll be watching you now

The memory has been erased  
Yeah  
They were honouring you all to kill

Follow me  
And I will take you in  
Finally  
You get to see what we think

Oh

I  
I found it in the air  
I saw it in the air

The sound  
It sounded like it's there  
You fall around the air

Follow me  
And I will take you in  
Finally  
You get to see what we think
