

Thomas Jack, Rivers

We're like rivers in the night
I go left and you go right
We'll find on the other side who we are, who we are
Wish me love and give me hope
Give me sunlight to my day
Turn it into gold
Carry on, carry on

We'll take these broken songs
Make them as good as new
Put them together into something we could never lose
We are rivers in the night
I go left and you go right
We'll find on the other side
Who we are, who we are

Make it into something beautiful
Yeah, we don't have to try
We can make it into something wonderful
We'll never say goodbye

We can make it into something beautiful
Yeah, we don't have to try
We can make it into something wonderful
We'll never say goodbye

We're like rivers in the night
I'll go left and you'll go right
We'll find on the other side who we are, who we are

Wish me love and give me hope
Give me sunlight to my day
Turn it into gold
Carry on, carry on

We'll take these broken songs
Make them as good as new
Put them together into something we could never lose

We are rivers in the night
I'll go left and you'll go right
We'll find on the other side who we are, who we are

Make it into something beautiful
Yeah, we don't have to try
We can make it into something wonderful
You'll never say goodbye
