

Those Dancing Days, Hitten

Slow down, please, slow down
I need to find peace anywhere in me
I feel like I'm under water, struggling to get air
I feel like I'm lost in this body, trying to get inside my head

I wanna know what im thinking what I'm feelin
What I want my life to be
I wanna know how I plan to make things easier
For everyone but me

Tell me, please, tell me
What to do know, now that I know myself
Do you really think I could relie on this new person I have become
Do you really think I give a damn now that I can do whatever I want

Now I know What I'm thinking what I'm feeling
What I want my life to be
Now I know how I plan to make things easier
For everyone including me

Instr. Break

Now I know What I'm thinking what I'm feeling
What I want my life to be
Now I know how I plan to make things easier
For everyone including me

Now I know What I'm thinking what I'm feeling
What I want my life to be
Now I know how I plan to make things easier
For everyone including me
