

Thousand Foot Krutch, The Alternative Song

Don't you know that every song starts with an intro,
Quiet 'til the middle then it picks up and goes on
...and on and on

Don't you know that every song starts with an intro,
Quiet 'til the middle then it picks up and goes on

And it goes on
And on and on and on
And it goes on
And on and on and on
And it goes on
And on and on and on
And it goes on, yeah
Yeah, yeah

Make sure your guitars are loud,
Loud enough to move the crowd
Feedback is essential
Know that my voice is smooth and clean
Like the gentle of your amp before you scream,
"Yeaaah" lets rock and roll

And it goes
One mississippi
Two mississippi
Three mississippi
Four and it goes
One mississippi
Two mississippi
Three mississippi
Four and it goes

On and on and on
And it goes on
And on and on and on
And it goes on
And on and on and on
And it goes on, yeah
Yeah, yeah

Let's rock and roll
Let's rock and roll
Let's rock and roll
And it goes
Let's jump around
Let's jump around
Let's jump around
And it goes
Let's rock and roll
Let's rock and roll
Let's rock and roll
And it goes
Let's jump around
Let's jump around
Let's jump around

And it goes on
And on and on and on
And it goes on
And on and on and on
And it goes on
And on and on and on
And it goes on, yeah
Yeah, yeah
