

# Three Days Grace, Drown

Good morning day  
Sorry I'm not there  
But all my favorite friends  
Vanished in the air

It's hard to fly  
When you can't even run  
Once I had the world  
But now I've got no one

If I needed someone to control me  
If I needed someone to hold me down  
I would change my direction  
And save myself before I  
If I needed someone to control me  
If I needed someone to push me around  
I would change my direction  
And save myself before I  
Drown  
Drown

Good morning day  
Sorry you're not here  
All those times before  
Were never this unclear

It's hard to walk  
When you can't even crawl  
Once I had this world  
But now I've lost it all

If I needed someone to control me  
If I needed someone to hold me down  
I would change my direction  
And save myself before I  
If I needed someone to control me  
If I needed someone to push me around  
I would change my direction  
And save myself before I  
Drown

Rolling faster than I'm breathing  
Drown  
Rolling faster than I'm breathing  
Drown  
Rolling faster than I'm breathing

If I needed someone to control me  
If I needed someone to hold me down  
I would change my direction  
And save myself before I (drown)  
If I needed someone to control me  
If I needed someone to push me around  
I would change my direction  
And save myself before I

(Save myself before I drown)  
(Save myself before I drown)  
(Save myself before I drown)
