

Three Doors Down, Here without you

A hundred days had made me older
Since the last time that I saw your pretty face
A thousand lights had made me colder
And I dont think I can look at this the same
But all the miles had separate
They disappeared now when Im dreaming of your face
Im here without you baby
but your still on my lonely mind
I think about you baby
and I dream about you all the time
Im here without you baby
but your still with me in my dreams
And tonight its only you and me
The miles just keep rolling
as the people either way to say hello
I hear this life is overrated
but I hope it gets better as we go
Im here without you baby
but your still on my lonely mind
I think about you baby
and I dream about you all the time
Im here without you baby
but your still with me in my dreams
And tonight girl its only you and me
Everything I know, and anywhere I go
It gets hard but it wont take away my love
And when the last one falls, when its all said and done
it get hard but it wont take away my love
Im here without you baby
but your still on my lonely mind
I think about you baby
and I dream about you all the time
Im here without you baby
but your still with me in my dreams
And tonight girl its only you and me (repeat)
