

Thunder, Together Or Apart

Long drive across a dusty plain
clear my eyes, clear my brain
I guess I needed some time

You and I are at the stage
where we stay together or make a change
We both know that it's right

Avoiding the future won't cut it anymore
We need to decide

Cos I can't stay in this place all my life
Are we one thing or the other
Are we only killing the time?
Together or apart, better make up your mind

I'm not trying to force your hand
I just wanna know where I stand
To get it straight in my head

Don't be afraid to tell the truth
Either way I'll still love you
Even if it's the end

It's no use pretending that this'll go away
It's been coming so long

Cos I know I won't be happy inside
Until we really talk about it
And I know there's nothing to hide
Together or apart, are you breaking my heart
Better make up your mind
Cos we're out of time

There's no right or wrong here, it's just the way it is
No need for disguise
Whatever your feelings, just look in my eyes
And you won't lie

Cos I can't stay in this place all my life
Are we one thing or the other
Are we only killing the time?
Together or apart, better make up your mind

We gotta sit and talk about it
Till I know there's nothing to hide
Together or apart, are you breaking my heart?
Better make up your mind, cos we're outta time
