

# Tiamat, Sleeping (In The Fire) [Cover from W.A.S.P.]

Touch, touch in the flame's desires  
Feeling the pain's denial,  
And your fingers in the fire  
Look, look in the candle light  
See in the flame of life  
And my spell is our lie

[Chorus:]

Taste the love  
The Lucifer's magic that makes you numb  
The passion and all the pain are one  
You're sleeping in the fire  
Taste the love  
The Lucifer's magic that makes you numb  
You feel what it does and you're drunk on love  
You're sleeping in the fire  
I gaze at the flame and fire burn  
And cry out the name of which I yearn

[Chorus]

Taste the love  
The Lucifer's magic that makes you numb  
The passion and all the pain are one  
You're sleeping in the fire
