## Tiamat, Sleeping (In The Fire) [Cover from W.A.S

Touch, touch in the flame's desires Feeling the pain's denial, And your fingers in the fire Look, look in the candle light See in the flame of life And my spell is our lie [Chorus:] Taste the love The Lucifer's magic that makes you numb The passion and all the pain are one You're sleeping in the fire Taste the love The Lucifer's magic that makes you numb You feel what it does and you're drunk on love You're sleeping in the fire I gaze at the flame and fire burn And cry out the name of which I yearn [Chorus] Taste the love The Lucifer's magic that makes you numb The passion and all the pain are one You're sleeping in the fire
