

# Tiësto & Don Diablo, Chemicals (feat. Thomas Troelsen)

I'm only human  
Just what can I do  
Cause I feel the fusion  
When I'm there with you  
We're all chemicals, cals, cals  
We are, are, are  
We're all chemicals, cals, cals  
We are, are, are  
We, we are we chemicals, cals, cals  
We are, are, are  
We're all chemicals  
We are  
We, we, are we chemicals, cals, cals  
We are, are, are, are, are ...

Chemicals

What's going on inside my brain  
You are somewhere on my DNA  
You got me way up in the sky, sky, sky  
Just pull me closer in the night, night, night
