

# Tiësto & Oliver Heldens, The Right Song (ft. Nata

Feel it in my bones  
This anticipation  
See him through the smoke  
So hard to be patient

There is a clock in mind  
We running out of time  
Killing it goes so easily  
I want to feel him breathe  
I want his hands on me  
You know there's just one thing I need /4x  
Just one thing I need, I need, I need, I need, I need

Alright!  
Come on, lift me with the right song  
I've been waiting for it all night, baby  
Before they turn the lights on,  
Come on, lift me with the right song

Run that bass, run that bass  
Through my veins  
Come and take me away, take me away

Alright!  
Come on, lift me with the right song /2x

Don't know where this goes  
I let the wind takes me into the unknown  
No more hesitating

There is a clock in mind  
We running out of time  
Killing it goes so easily  
I want to feel his breathe  
I want his hands on me  
You know there's just one thing I need /4x  
Just one thing I need, I need, I need, I need, I need
