

# Tiffany Alvord, That Kiss

You and me we used to be friends,  
Nothing more and nothing less  
You and me we used to hang out,  
Never ever thinking about  
More than you and more than me,  
A growing love that we didn't see  
Until this kiss,  
That was more than this  
It was more than us just being friends  
This kiss was a magical thing,  
My heart did fly and the angels did sing  
Oh oh oh....  
From then on when you looked in my eyes,  
It felt like I was being hypnotized  
Your cute smile and your perfect hair,  
Your beautiful eyes  
I can't help but stare cause  
Its more than you and more than me,  
A growing love that we didn't see  
Until that kiss,  
That was more than this  
It was more than us just being friends  
That kiss was a magical thing,  
My heart did fly and the angels did sing  
Oh oh oh....  
Cause you mean everything to me,  
And without you I don't know what I'd be  
Cause of that kiss,  
That was more than this  
It was more than us just being friends  
That kiss was a magical thing,  
My heart did fly and the angels did sing  
Oh oh oh....  
Cause of that kiss
