

Tiffany Young, Magnetic Moon

teaming a wild heart
taking a free spirit
running on empty
chasing heat of the night

hold on
it's a long way down
kinda
crazy
how the world spins' round

up on the roof
dancing for you
under a million stars
magnetic moon
pulls me to you
whit your ocean arms

pulling me to you
pulling me to you
pulling me to you
pulling me to you

taste like summer
midnight blue forever
wearing each other
visions in lucid color

hold on
it's a long way down
kinda
crazy
how the world spins' round

up on the roof
dancing for you
under a million stars
magnetic moon
pulls me to you
whit your ocean arms

pulling me to you
pulling me to you
pulling me to you
pulling me to you

I couldn't leave you right now if I tried
I couldn't leave you right now if I tried

up on the roof
dancing for you
under a million stars
magnetic moon
pulls me to you
whit your ocean arms

pulling me to you
pulling me to you
pulling me to you
pulling me to you
